MONTANA STATE COLLEGE

BOZEMAN, MONTANA

PHOTOS BY DROSS

From the first 150 page annual, **The Blue and Gold,** which was presented to the students of Montana Agricultural College on May 1, 1907 to now, the annual has recorded pictures and stories of MSC's yearly progress from MAC to MSC, from a small agricultural college to the largest educational institution in Montana.

The title **Montanian** was used on the 1908 and 1909 and changed to **Montanan** in 1910, this name has been found on the cover of MSC's annual since that year.

I will try, in this Fiftieth Anniversary Edition, to present this past year as accurately as possible, along with occasional glimpses into the growth of Montana State College.

Inside the Health & Physical Education Center

This past year has represented a big step in progress. MSC is on the margin between a small college and a large college. The building program has been the largest and most noticeable change on our campus. The facilities of our Student Union addition are the most elaborate in Montana to say the least. The H & PE Center will bring events to this campus and to Bozeman that were never before possible as well as providing the best of conditions for athletics and many other activities.

With passing the three-thousand mark as history, we are looking forward, whether we like it or not, to the four-thousand mark. Dorms are filling and when a lot of us skip classes the coffee shop area is about full. One consolation is that we can look forward to elbow room in the H & PE Center for a few years at least.

This past year exerted a few loud exclamations accredited to growing pains. The re-evaluation of Student Senate, the athletic discussion and several less noticeable controversies took place.

MSC is on the verge of becoming a prominent American college. The country realized that Montana State could play football when our team traveled to Little Rock, Arkansas, and the Aluminum Bowl last December.

Aerial View of the College Campus

I cannot but wonder what another fifty years will bring to this campus. In 1893 in the Academy Building, which stood down on West Main, there began this institution. Much sweat and sacrifice has gone into its growth. I feel that we are obligated as members of the Associated Students of Montana State College to do our most for the continued high standards, superior educational ranking and above all, the good times, friendships and life-long benefits which are acquired through the facilities of this campus.

President's Message

On the occasion of the Fiftieth Anniversary of the Montanan, I would like to express congratulations and best wishes to the Montanan staff and all the students who have had a part in making this Montanan the fine volume it is.

Over the years, the Montanan has gained a reputation as a splendid volume, recording the student life, activities and services at Montana State College. The Montanan is a permanent record which students, faculty, and friends of the institution treasure having in their library for reference through the years and for fond memories of campus life at MSC.

Again, congratulations and best wishes on the occasion of the Fiftieth Anniversary of the Montanan.

Ronald R. Renne
President

Dr. R. R. Renne

PRESIDENT RENNE has been the head of this college for the past thirteen years. His policies have helped to build MSC to its present stature. Student governing and student opinion are our privileges because Dr. Renne is willing to listen and weigh the voice of the student. We are fortunate to have him and we can feel sure that under his leadership this college will grow and prosper.

Miss Harriet Miller

MISS HARRIET MILLER, State Superintendent of Schools, now holds the highest position in the state educational system.

The students of Montana State College wish her the best of luck and we feel that, with her background and experience in the field of education, her policies and legislation will bring great strides in the advancement of better education in Montana.

State Board of Education

L. to R: Clarence Popham, George Lund, Mrs. H. F. Petro, Monsignor Emmett J. Riley, Harriet Miller, Governor Aronson, Attorney General Forrest Anderson, A. B. Guthrie, Merritt Warden, Mrs. Edith Chambers, Horace Dwyer.

Dean Brown

Always ready and willing to lend a helping hand, or should we say, "word of advice," to any student with any kind of a problem, this is Miss Esther Brown, whose official position on the campus is that of Dean of Women. Her door is always open to anyone, boys as well as girls, if they want to come just to chat and talk about the weather or if they have some kind of problem. Dean Brown is never too busy to stop and talk for a minute.

The job of being Dean of Women is not a simple one, for she has many girls she must look after and help and guide in their education. She must also see that they maintain proper behavior and learn correct social etiquette. Although this is almost an impossible task, Dean Brown is doing an excellent job, plus taking care of her many other activities she must attend to constantly. One of her main tasks in the Spring is assisting with and planning for the annual Women's Day program.

Dean Glynn

Dean Glynn is a personal friend to many students on the Montana State College Campus. If it were at all possible, he would be a personal friend of all of the over 3,000 students on the MSC campus, because you see, he takes a personal interest in each and every student on this campus, whether the student is aware of this or not. He is the man responsible for the welfare of each of the students on this campus.

Due to his alert and watchful planning, students soon learn how much of the responsibility of their success depends on them. As Dean of Students at MSC he has guided innumerable students when they became confused and needed the kind of wisdom he had to offer them. Mr. Val Glynn is a man to know, just for the practical value of knowing Val Glynn and what he stands for, as a person, and also for the calm, kind, and considerate way about him.

AGRICULTURE DIVISION

Dean M. M. Kelso

Heading the Division of Agriculture is Dr. Maurice M. Kelso, a straight forward and hard working man, who received his Ph.D. from the University of Wisconsin. As well as being Dean of the Division of Agriculture at MSC, Dr. Kelso is also director of Montana's eight different experiment stations. He has done an excellent job of promoting a better and broader research program at each of these different stations.

There are many related fields in the Division of Agriculture. Among these are: poultry industry, agronomy, dairy, mechanics, horticulture, animal industry, and several others.

Sometime within his senior year, a future ag education major is required to student teach. After three years, and sometimes more, of talking, discussing and learning about the problems of an ag teacher the student finally has a chance to gain first hand information and experience about it.

With so many fields to choose from in the Division of Agriculture, a future "aggie" will have little or no trouble finding a job in his specialized field.

ENGINEERING DIVISION

Dean E. W. Schilling

Dr. E. W. Schilling has the responsibility of being the dean to the largest department at MSC. Dean Schilling received his B.S. degree at the University of Illinois and his M.S. and Ph.D. at Iowa State College.

Besides being the Dean of Engineering, Dean Schilling is also the Director of the Engineering Experiment Station and a Professor of Electrical Engineering.

The Division of Engineering at MSC trains students to take their place in the technological world, and to find enjoyment in the industry which is becoming more and more scientific and exacting. During an Engineering student's four years at MSC he spends many hours a day in the beautiful Roberts Hall which houses most of the Engineering classes.

Dean Schilling has done much to promote a feeling of cooperation and closeness between his students and faculty. He keeps the division running smoothly and he enjoys taking a personal interest in all of the students and in helping them over an obstacle or a problem if they need it.

EDUCATION DIVISION

Dean James F. Nickerson

This division just three years old this year is, without a doubt, the fastest growing department on campus. In fact, this division has been growing so rapidly that several new faculty members have to be added each year in order to accommodate the already overcrowded education classrooms.

To Dr. James F. Nickerson, Dean of the Division of Education, falls the great responsibility of helping to supply America with the most desperately needed people in the nation, the future teachers.

As well as being Dean of Education, Dean Nickerson is also a Psychology Professor. He also has the position of Director of the Summer Quarter, as well as many other important responsibilities.

Dean Nickerson received his Ph.D. at the University of Minnesota.

L. to R.: Melvin Monson, Earl Fellbaum, M. E. Brookhart, Mrs. Sally Wright, James F. Nickerson, Milford Franks, Jim Edie.

Testing for aptitude, interest and intelligence, among other things, are carried on in the Educational Department.

L. to R.: Keith Bowen, Grant Gaines, Miss Eileen Morrison, Mrs. Wylla Barsness, Jim Welch, Les Opp.

Household and Applied Arts Division

Dean Katherine Roy

As Dean of this Division, Dean Roy has under her very capable authority, the majority of the girls at MSC. Dr. Katherine Roy received her Ph.D. at Cornell University. She came to MSC in January of 1946 with a special interest in child development and care. Dean Roy is never so busy, she cannot spare a few minutes to talk with some student or fellow faculty member.

As well as being Dean to this large division which includes art majors, commercial science or business majors, and home ec majors, Dean Roy is also a professor of Home Economics.

For one quarter of a girl's senior year she must student teach for one-half of the quarter, if she is in the education phase of Home Economics. For the other one-half of this quarter the girl is required to live in the Home Management House. Here the girls will learn every detail of how to manage a home. They will plan, cook and serve meals and learn how to manage a home both financially and esthetically. And if they didn't already know, they will learn how to clean house too.

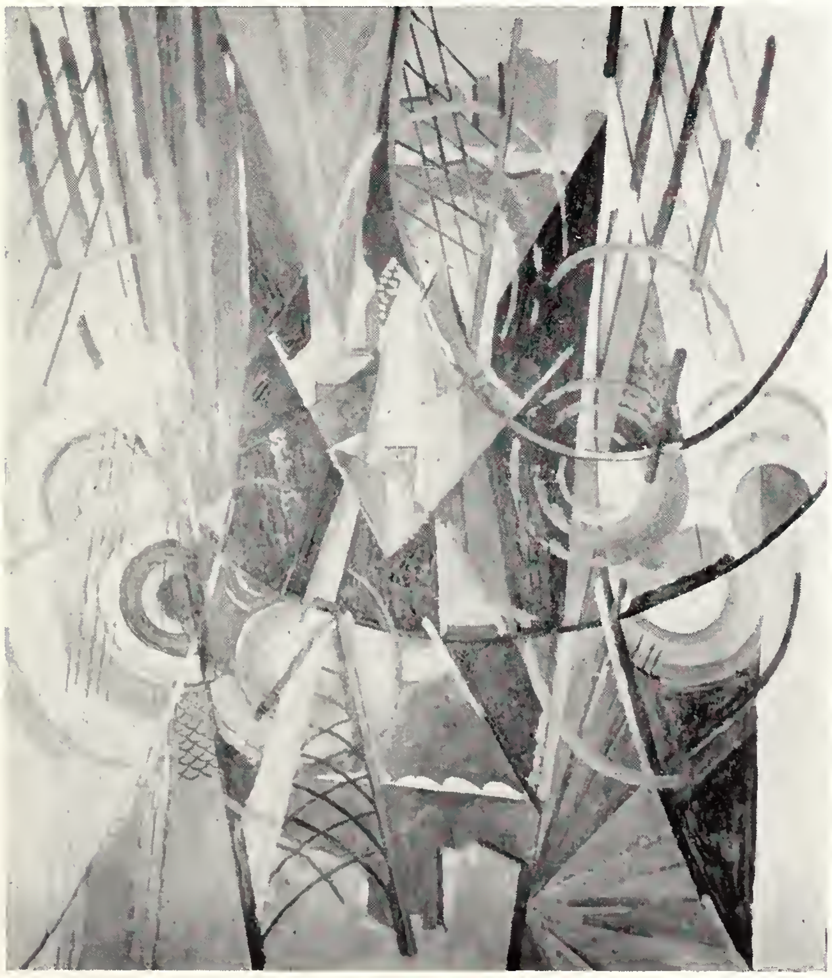
An exhibit in the annual Art Bazaar, presented by the Art majors.



Helen Mayfield and Mildred Leigh, more of the Department's faculty.

SCIENCE DIVISION

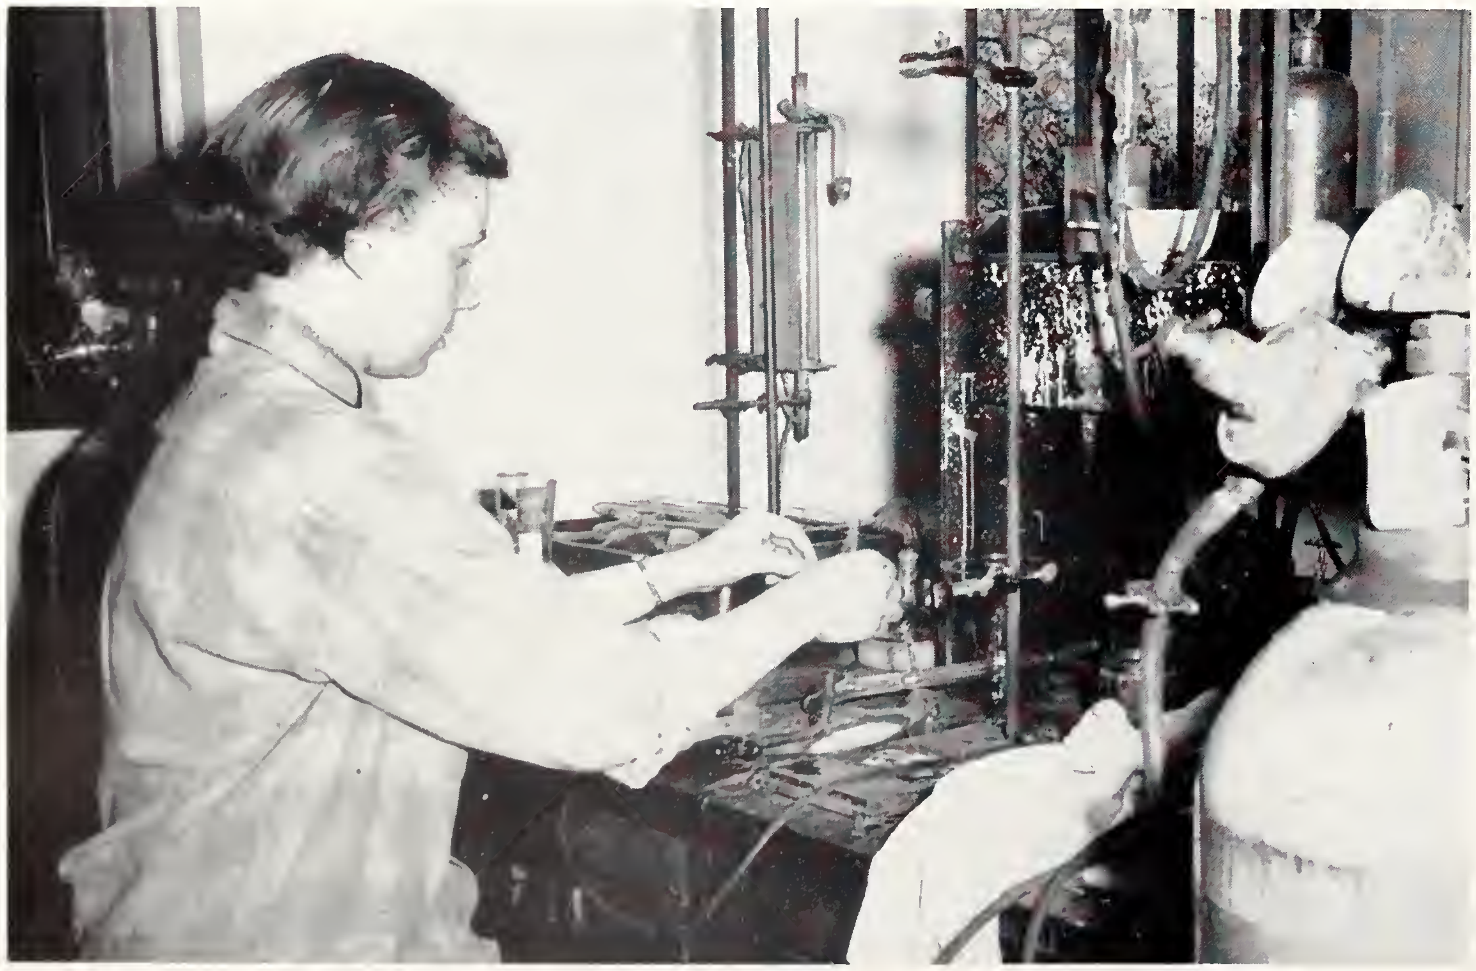
Dean Frank B. Cotner

Dr. Frank B. Cotner has the privilege of counseling and guiding the students enrolled in the division of science, as he has the important job of being dean of this department. Dean Cotner received his Ph.D. from the University of Michigan in 1930.

Students from several departments belong in this division. They are the students enrolled in Entomology, Zoology, Bacteriology, Botany, Military Science, Nursing and many other fields. Lewis Hall and the Chem Building are the homes of those majoring in this division. The labs of Lewis Hall, house everything from experimental animals to experimental freshmen students.

Future nurses receive their preliminary training here, before they head for the practice hospitals at Butte, Billings, or Great Falls, where they finish their training and receive their caps. Being prepared as they are, they will aptly fill the many vacancies waiting for them in the science field.

Chemistry labs provide the opportunity to conduct experiments on material covered in classes.



Sore eye-balls are the result of microscope peeping in bacteriology lab.

The science faculty comprise the largest department on campus including math, physics, chemistry, the plant sciences, military and many other sub-divisions.

David Street

Dave Street, a pre-med major from Bozeman, is the capable president of the Associated Students of Montana State College. Dave also presides over the Student Senate, which discusses student complaints and governs student activities. His main task is to promote cooperation between the students and the administration at MSC.

Dave is a past Duke of the Fang Chapter of Intercollegiate Knights. Some of his many other activities include Phi Sigma, Mu Sigma Alpha, and Septemviri. Dave is a member of the Sigma Chi Fraternity.

ASMSC

Don Graham

Glenelle Wood

The vice-president of ASMSC is Don Graham. Don, a senior majoring in Soils, hails from Columbia Falls, Mont. He is also president of Alpha Gamma Rho Fraternity and president of I.F.C.

The secretary of the Student Senate is Glenelle Wood. She is a Zoology major from Miami Beach, Florida. Her activities include being president of Mortar Board and vice president of Alpha Omicron Pi Sorority.

A very capable President of the Associated Women Students, Jean has the responsibility of seeing that the purpose of AWS, which is regulating all women's activities on campus, is run smoothly. This includes closing hours and study hours in the different women's housing. Some of Jean's other activities include Mortar Board, Phi Kappa Phi, Dolphins, and she is also a member of Pi Beta Phi Sorority.

The main duty of a commissioner is that he is responsible for the respective board of which he is commissioner. Each commissioner is responsible for submitting their own budget to Student Senate and the Senate must approve this budget.

The commissioners are automatically members of Student Senate, and are therefore subject to any of the various jobs or committees that Senate may wish to put them on, even though it may have nothing to do with his primary duty.

Another job of a commissioner is reporting to Student Senate important things which go on at their meetings so that Senate will know what is taking place and will be able to better function as a governing body.

STUDENT SENATE

The Student Senate is the student voice in campus activities. Any student who has an interest in student government is urged to attend its meetings at 5 o'clock every Monday.

A branch which sprang from Senate this past year was the traditions board which is devoted to promote the functioning of traditions on MSC's campus. The Commissioner of Demonstrations is its chairman.

Working constantly to maintain peace and harmony among all students and faculty members are these several student-faculty committees. These are rather unique committees, as students on very few college campuses get to voice their opinions in the affairs of the college. Each committee has its own special field of concern and always find plenty to keep them busy.

Probably the most widely read of any student publication is the EXPONENT. This paper contains news items, notices, jokes, society column, and any or all pertinent material that helps to keep the students well informed.

The EXPONENT is supported through student activity fees, advertising and subscriptions. It is often the center of heated campus issues and is always the center of information.

The last five or six years has found MSC's enrollment more than doubled itself. Also in this time the need for bigger classrooms, bigger dorms, a bigger athletic center, an enlarged Student Union and an increase in the faculty became apparent and most of these changes have been made.

What was bound to happen did happen as we equalled and passed the enrollment of our little sister to the west, MSU.

WINTER PLAY

THE RAINMAKER

The occasion for the winter play was the dedication of MSC's new theatre located in the old SUB ballroom. "The Rainmaker" was an appropriate introduction for the new home of MSC dramatics. The story of a plain girl who has given up hope of ever getting married is the basis of the story. Her family's efforts to help and the entry into their lives of the rainmaker further complicates matters before things are settled to the happiness of all. With the use of lighting, three different stage sets were effectively used. Superior acting made each character vivid and alive. "The Rainmaker" played for five consecutive days to capacity crowds.

Crops Judging Team

The second Crops Judging Team entered by MSC since World War II competed in both the National Crops Judging Contest in Kansas City, and the International Crops Judging Contest in Chicago. The team placed 10th in both contests. A perfect score in cotton grading was achieved by the team in the Chicago contest. Duane Arneklev was second high individual in commercial grading in Kansas City. The team traveled 3,500 miles of some of the midwest's finest agricultural country which in itself served a very educational purpose.

JUDGING TEAMS

The board of Judging Teams acts as the central organization of the various teams. Grain, livestock, wool, dairy cattle and dairy products teams can be formed under the supervision of the departments.

Row 1, L. to R.: Delbert Pasha, Sid Turnquist.
Row 2: James Bassett, John Melott, Bill Denecke.

Wool Judging Team

This year the wool judges traveled to Denver, Colorado, to compete in the National Western Livestock Show's judging contests.

They scored high but were destined to come out in sixth place among the eleven teams participating.

John Melott tied for the honor of being the second high individual wool judge in the contest. Much credit goes to their coach, Jim Bassett, for his efforts.

WOMEN'S DAY

Completely and exclusively performed by the female members of Montana State College student body, is this annual Women's Day, a beautiful occasion of pageantry and importance.

Led by Dean Brown, the five-year speaker, honored guests, seniors and spurs, the student body women form a parade that originates at the Student Union Building. From there it goes past Hamilton Hall to Herrick, up Hello Walk and down the oval to the gymnasium. An assembly in the gymnasium honors the outstanding women.

Bright and early, one day in the Fall, bewildered Freshmen are torn from warm beds by much, much noise. This is the big day, the day our "M" is white-washed by all the Frosh. Spurs and Fangs keep the line moving up to the top of the hill, midst the entanglement of water cans, lime and borrowed brooms.

Splash . . . another rock is white, bang . . . there goes a water can down the hill . . . , and so it goes as everyone has a good time working. When the "M" shines with a new coat of white-wash, all head to the bottom, set to enjoy the holiday, but remember all you tired muscles, we do it again in the spring.

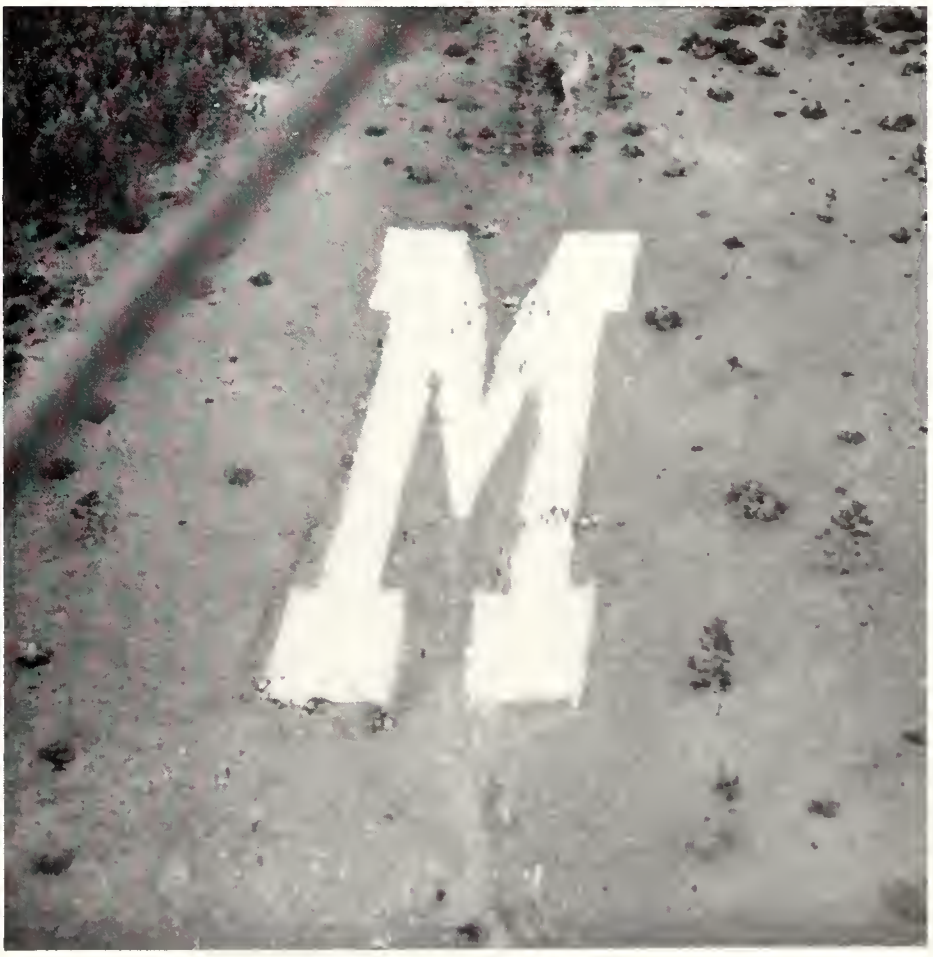
Above: **Following the tradition that has stood as long as the "M" has existed.**

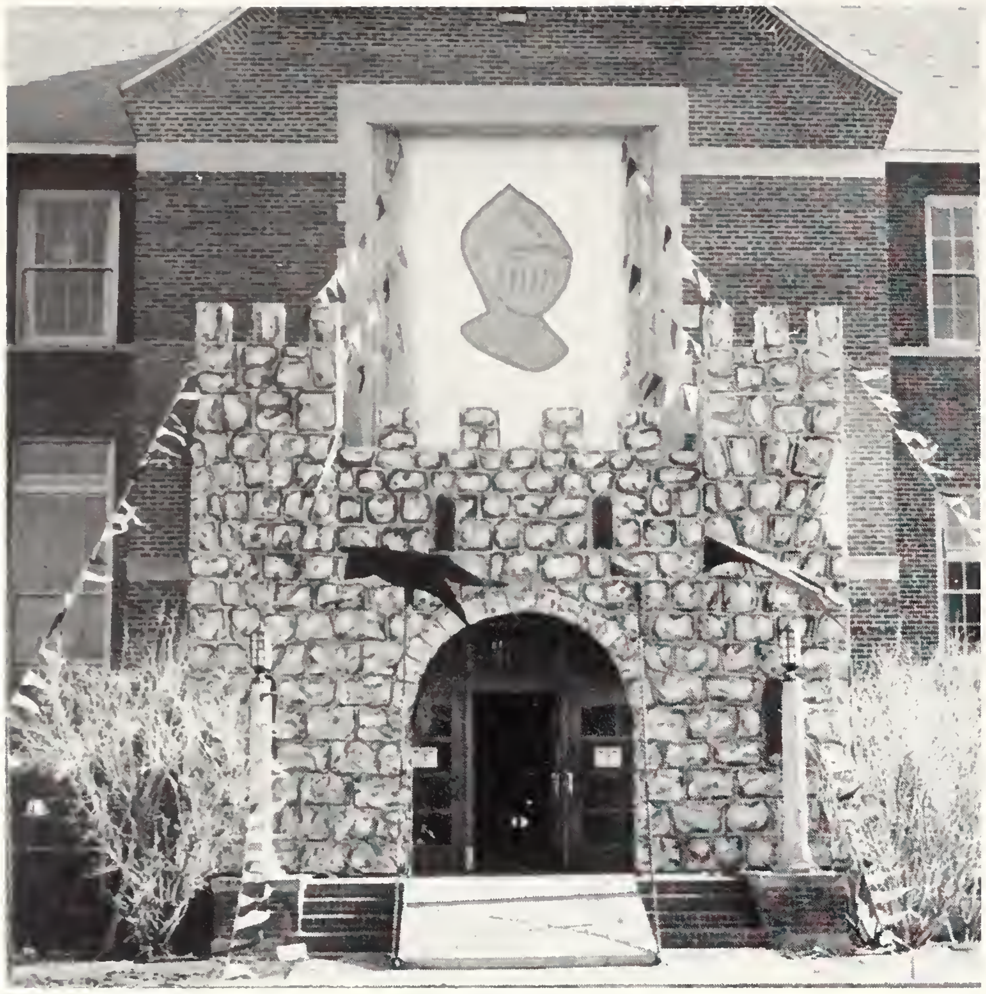
Below: **The task completed and down the hill we go — faster than we came up.**

M-DAY

Lime and water forms the all-purpose covering, which is about what it is used for.

The "M" stands out boldly as the ageless symbol of this proud campus.





The SUB front became the entrance to the headquarters of the IK's.

Last spring Montana State College was the site of the National Intercollegiate Knight Convention at which some three hundred college students from Western colleges were represented.

Coats of arms were designed and made by each chapter for the decoration of the SUB ballroom where the IK Ball was held. The Queen of all IK's was crowned at the Ball.

Other activities taking place during the convention were many meetings, a sports program, a stag party and a banquet on the last day.

The great success of this convention was due largely to the months of preparation by the Fang Chapter here at MSC.

IK CONVENTION

Business meetings were concerned with a closer coordination of Chapter activities.

The court jesters provided entertainment for the Ball.

The International Club presents its International Ball each year featuring a unique and interesting program. The students from other countries bring many native dances and some very unusual talent to the campus of MSC.

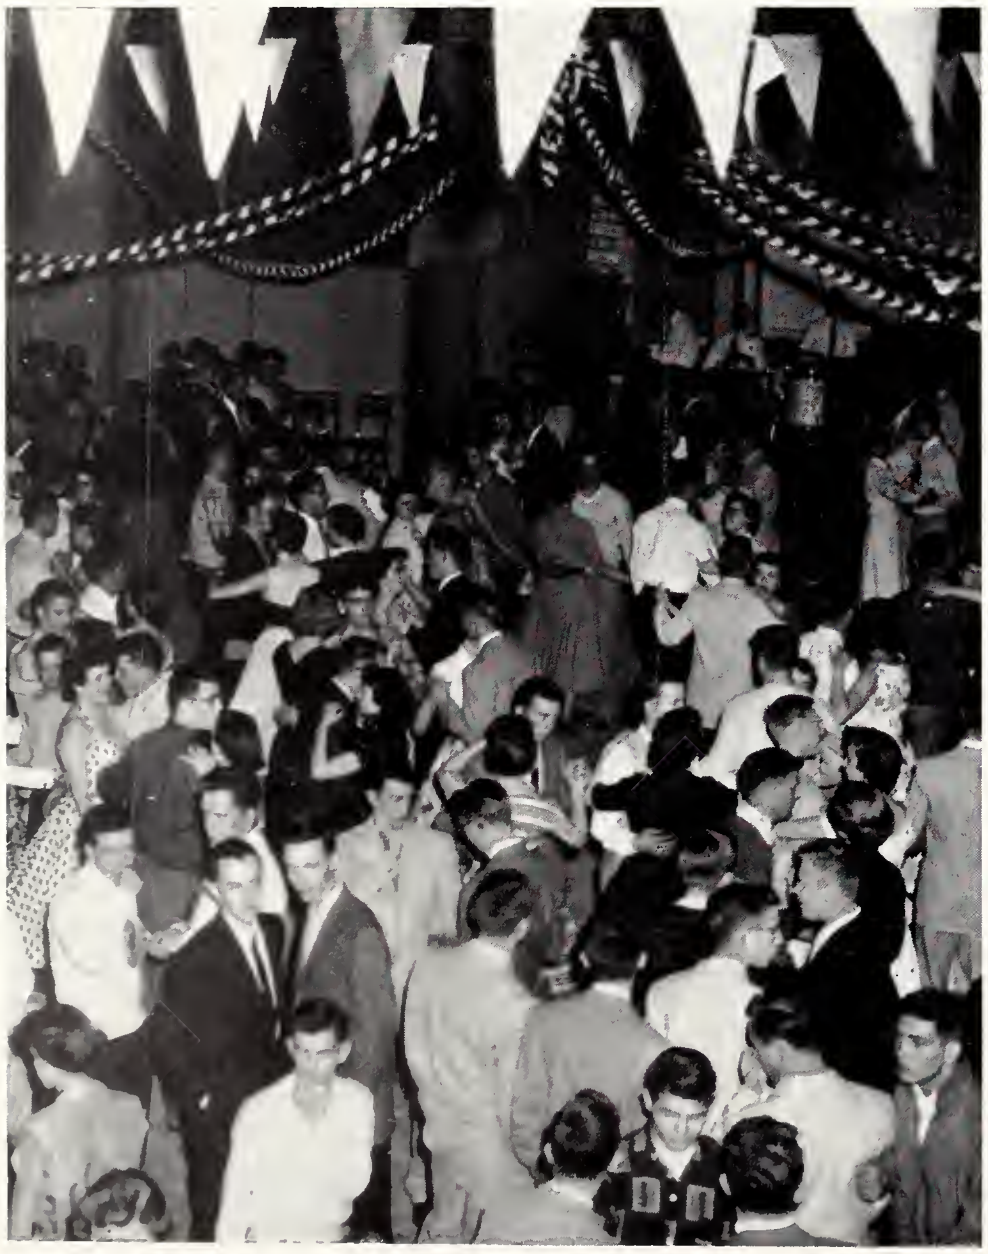
HIGH SCHOOL

The dance may be for the high school students but familiar faces do appear.



The last week-end in April sees High School Seniors from more than 100 schools in Montana on the MSC campus. The purpose is for college orientation and taking tests. While these students are on the campus they get a real taste of college life, as they live in college dormitories or houses, eat college food, and keep college hours.

During the few short days these seniors are on campus they take a large battery of tests, and have several hours of orientation. They also join in a variety of social activities while on campus, as the Spurs and Fangs sponsor a High School Week mixer for them. There is a talent show, and to top off these few days of tests and orientation, Mortar Board sponsors a carnival.

The KD's present their part of the Variety Show.

Bless you John, I think. Anyway, this is part of the Mortar Board Carnival.

Manager Lee Bawden and the Harvest Ball Queen, Karen Frost, who reigns over the "Little I". Between them are the division trophies, the Kiwanis Plaque and the Galt Memorial trophy.

Each spring the Little International, well known on our campus, is sponsored by Ag Club. Many weeks of hard work go into the preparation for the show. Any Ag Club member is eligible to show. During this time the showmen and women tame, break to lead and carefully fit the animals for the show ring.

The winner of each division is awarded an animal of the class which he showed. Each division winner then competes for the Grand Champion Showman.

Students do all the directing and managing of the show. As a special sideline, sorority girls have their hand at cow milking while the fraternities scramble for a greased pig. The Little "I" is based on cooperative spirit and competition among all those interested in livestock and agriculture.

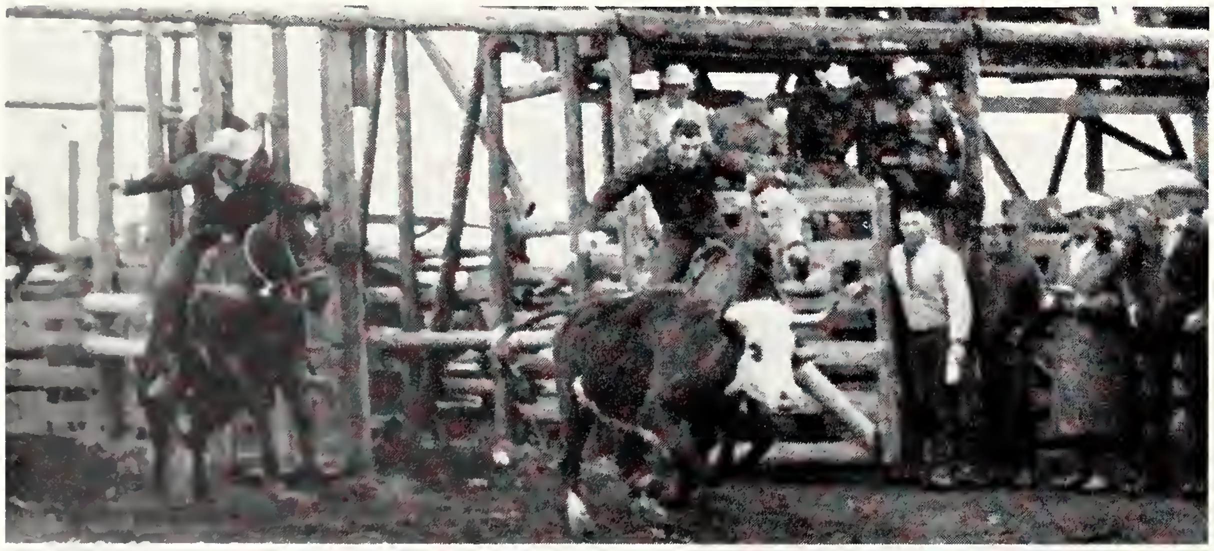
The Intercollegiate Rodeo each year brings teams to MSC from all over the Rocky Mountain region. The teams are formed by the best ropers, riders, doggers and wild cow milkers from any of the twenty-two schools in this region. The National Intercollegiate Championship was won by the team from Sam Houston State of Texas. The MSC Rodeo Team had a good season but fell just short of reaching the National Championship Rodeo.

INTERCOLLEGIATE RODEO



Steady nerves and a strong back are enough to stop a few hundred pounds of beef, but you gotta know how.

It's no disgrace to get piled. If it were there would be a lot of disgraceful cowboys.

Disillusion

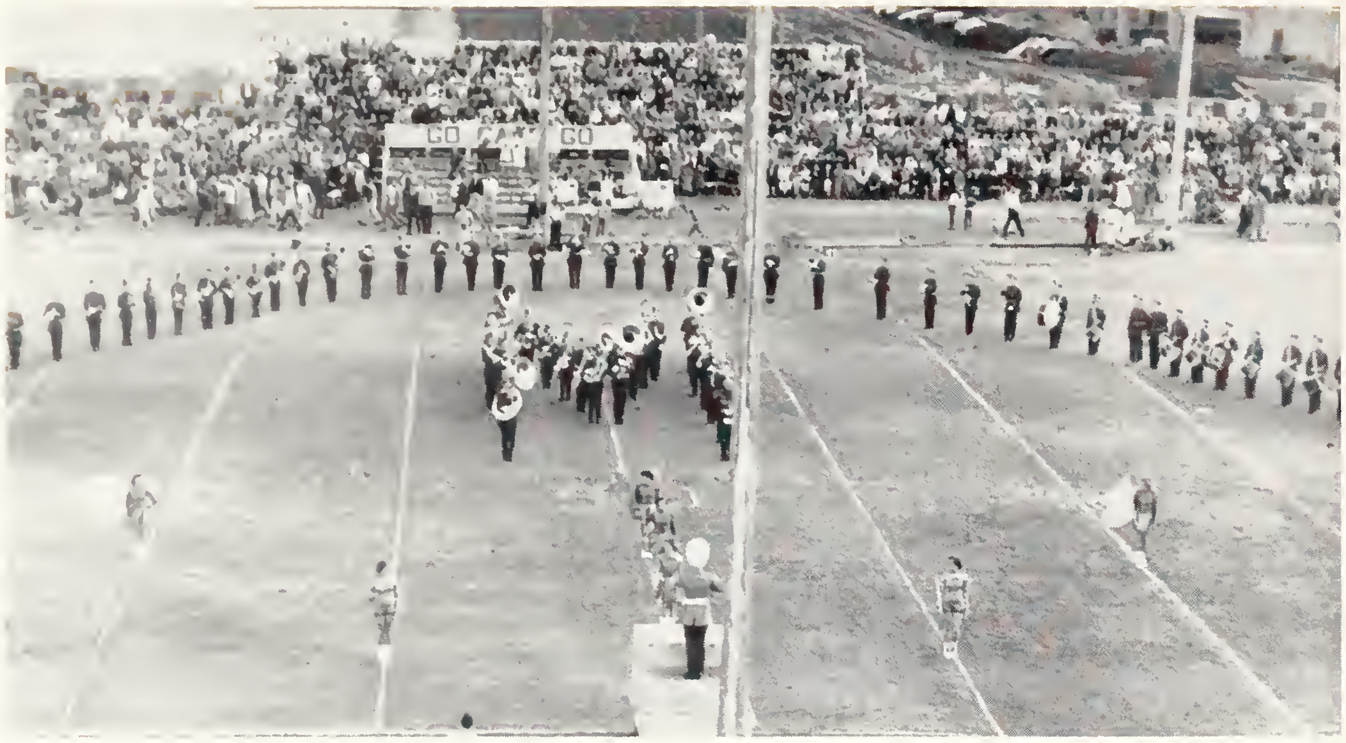
Dances are held every free night and many new friends are found. The girls haven't realized, as yet, their advantage in the supply and demand ratio.

Diffusion

You get jabbed, patted, gawked at, weighed, measured and all precautions taken to make sure that you can make it through registration.

Confusion

"So what do YOU want?" If you make it through this, college is a snap. Some day the students should put the faculty through registration.



The band presented the game's half time ceremony along with the winning floats.

HOMECOMING

President Renne crowned Jo Roban as Homecoming Queen, her attendants, Liz Cantieny and Jane Bishop look on.

Elvis P. Brookhart and the Lashway gang help entertain at the Variety Show, Friday night.

An enthusiastic crowd watched MSC romp over Idaho State, Saturday afternoon.

Once again fellow class mates reunited to reminisce the "good old days gone by at dear old MSC".

The "Queen's Tour" of the major cities in Montana was a new and unique type of publicity and was considered very beneficial to the college and to Homecoming.

The week-end of excitement started off with an Alumni banquet on Friday, followed by a talent show, which featured the crowning of Jo Ann Roban as Homecoming Queen. Then over to the football field where a pep rally was held. Early Saturday morning one could hear the stirring music of the bands and see the finely-made floats glittering in the sunlight, as the parade set the spirit of the day going.

The Cats, scratched through with a victory over Idaho State and the dreamy music of Buddy Morrow's dance band at the ball, brought the excitement packed week-end to a close as a huge success.

Through the gym and out to the people in their homes went the joyful story of the holiday season, carried by the well-practiced voices of the students of MSC. Amid the worries of finals, these members of each organized living group found time to practice the many favorite melodies of the season.

With the organ prelude to set the pace, followed by the orchestra, each group took their turn in walking the well-trodden path to the risers to sing out their message of glad tidings which soared high to make this year's Christmas Sing a success in every way.

Religious Emphasis Week is an annual event on the MSC campus. The general purpose of this week is to stimulate religious thinking on campus and to generate the spark of interest which brings about a more active religious program.

Speakers from all over the country bring messages of inspiration and display unusual talent in speaking and in finding the keys to many student problems.

The planning and presentation of the activities are carried out by student committees, around two hundred and fifty participate. Faculty members help by advising and speaking at the morning chapel services. The religious counselor, Barbara Cooke, is the main-spring of the program and much credit goes to her.

Alpha Psi Omega co-operated by presenting a dramatic presentation entitled "Boy With a Cart."

RELIGIOUS EMPHASIS

Regular meetings were held in the SUB and at the Religious Counselor's office.
The committee chairmen reported on their progress and maintained
the co-ordination necessary for an effective program.

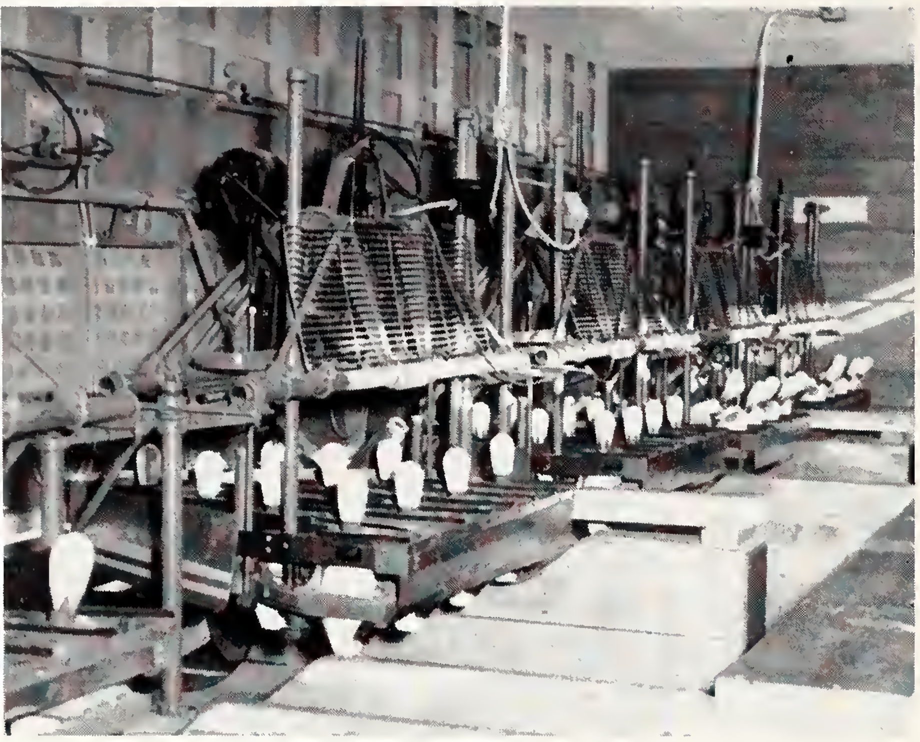
The Co-chairmen of REW were Jean Painter and Sam Weeks. The General Chairman was Blake Zinnicker (not pictured).

The Spurs, Fangs and Mortar Board prepare to take their places at the kick-off assembly of the REW activities.

WEEK

Inspirational altar arrangements were erected in Danforth Chapel where morning chapel services and vespers were held.

This elaborate lighting system lights the stairway down to the bookstore and game room.



These are the mechanics of the new bowling alleys.

SUB ADDITION

The SUB took on a new look as the addition took shape over last summer. The long needed improvements came about finally and it is hard to believe that our SUB has a health service, theater, bowling alleys, game areas, a big coffee shop and dining area, new publication's offices, a fancy new bookstore and just about everything possible.

The students over the past years realized what was needed and worked hard to get it started. We are the ones who benefit from the efforts of those people, some of whom are still here. Mildred Leigh and Hugo Eck have put in many long hours and are still doing the same.

The big event of the ski carnival was the races and contests held at the Bridger Bowl. This year because of the stormy weather the contests were unable to be finished during the carnival.

The snow sculptures probably caused the most attention, planning and work of the whole carnival. Many hours of strenuous labor go into the making of the intricate sculptures made by all of the living groups.

Climaxing another successful ski carnival was the crowning of a Ski Queen and King during the dance at the Masonic Temple.

On the left you see the first annual produced at Montana Agricultural College. The preface of "The Blue and Gold" ends in these words ". . . if we have done anything to merit your appreciation, or have made it any easier for those who will follow in our footsteps, our labors and troubles have not been in vain." It was signed by the editor, James A. Peterson.

The first few pages concerned the college history and the first president, James Reid. Then came the faculty and classes. The Seniors and Juniors had individual pictures, the Sophomore and Freshman classes had group pictures. Also included were the divisions, clubs, sports, activities and advertising. The book was called a Junior Annual because it was edited by the Junior class as it was for several years following this.

Fifty years is quite a while to most of us and on this anniversary we enjoy bringing back the first book as part of the fiftieth.

The first president, Dr. James Reid, presided from 1894 to 1904.

THE BIG TEN

This group of Seniors represents the cream of the crop. They are selected by a faculty committee chosen by President Renne. Grades, activities and leadership are all considered in the selection of these honored students composing this year's Big Ten.

ARDIS JEAN ALLEN

Jean Allen, President of the Associated Women Students, came to Montana State from Helena. She has been a member of several honoraries: Spurs, sophomore women's honorary; Phi Kappa Phi, senior scholastic honorary; Phi Sigma, biology professional, and Who's Who.

Jean's other activities include Dolphins and Concert Chorus. She will receive her degree in Applied Science and is a member of the Pi Beta Phi sorority and served as Vice President this past year.

WILLIAM H. BARCLAY

Bill Barclay has distinguished himself in activities at MSC. Among his activities are Homecoming co-chairman, Student Member of the Bookstore, Les Bouffons, and Student Senate. Bill comes from New Rochelle, New York, and is a veteran. He will get his degree in Industrial Engineering.

Bill is a strong believer in the saying that grades aren't everything and puts in many hours on extra-curricular activities.

ELIZABETH CANTIENY

Lis Cantieny is a Commercial Science major from St. Louis Park, Minn.

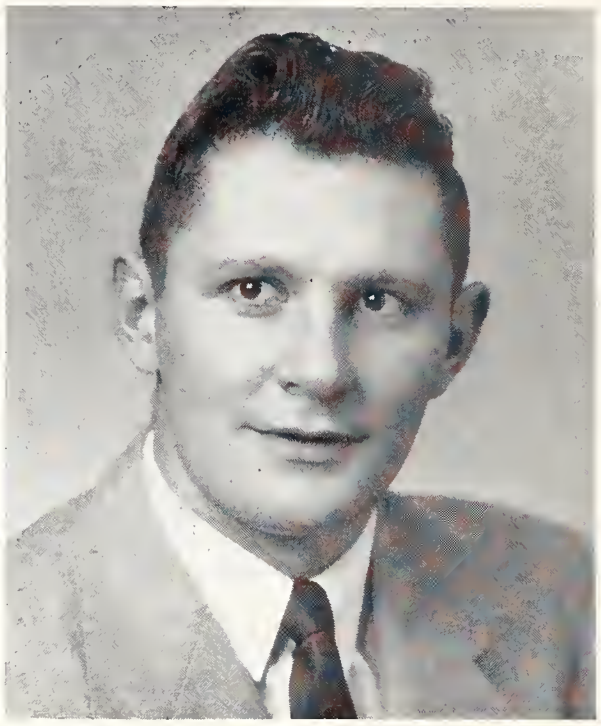
Liz was our candidate for Aluminum Bowl Queen and traveled to Little Rock as a very capable representative.

She belongs to Phi Kappa Phi, senior scholastic honorary, and Pi Omega Pi, Commercial Science honorary. Dolphins, WAA, Rodeo Club, Ski Club and Chi Omega sorority are some of her other activities over her four years.

RONALD E. PAIGE

Ron Paige claims Twin Bridges as his home. He majors in Ag. Education.

Ron's honoraries include: Alpha Zeta, Ag. honorary; Phi Kappa Phi, Phi Eta Sigma and Scabbard and Blade. Among his other activities are Farmhouse Club, Pres.; Collegiate FFA, Pres.; Ag. Club, JV football and intramurals.



JEAN ALLEN PAINTER

Jean is a Health and Physical Education major from Helena. She has been an active member in Dolphins, WAA, Canterbury Club, Ski Club and H & PE Club since her freshman year at college.

During her senior year, Jean was president of her sorority —— Pi Beta Phi, co-chairman of Religious Emphasis Week, a member of Mortar Board, Who's Who, and she also received an advanced honor scholarship.

DAVID T. SCHMIDT

As Commissioner of Demonstrations, and Traditions Board Chairman, Dave has an important job on Student Senate.

Some of the honors he has received are as follows: Who's Who, Septemviri, Advanced Honor Scholarship, Fang officer, Phi Eta Sigma, and Scabbard and Blade.

Besides majoring in Mechanical Engineering, Dave's other activities were Junior class President, ASME, Arnold Air Society, High School Week Committee, Student-Faculty Committees, WUS Assemblies Chairman, REW, Newman Club, and the Student Handbook Committee.

JEROME D. SIDERIUS

During Jerry's senior year at MSC he served as president of his fraternity, Sigma Chi and also was president of Septemviri.

Jerry hails from Somers, Montana, and is a Chemistry major. Among his activities are Arnold Air Society, Interfraternity Council, Les Bouffons, Traditions Board and M Club. As well as being a member of many organizations, he has served as an officer in nearly all of them. Jerry was selected as a member of Who's Who this past year.

DAVID E. STREET

Dave served this past year as President of the Student body. He is a Pre-Med major from Bozeman.

Among his many accomplishments are Duke of Fangs, King of the Hill, Septemviri, Phi Sigma, Mu Sigma Alpha, Who's Who, and REW Co-chairman. Dave was Vice President of his sophomore class and has been active in chorus activities. He is a member of the Sigma Chi fraternity.

Dave has set a fine example while being the Student Body President.

RICHARD A. VOGNILD

Rick became quite well known as the editor of the Exponent.

While attending college at Oregon State he was a member of the Phi Kappa Psi fraternity. Rick came to MSC after his second year to major in Architectural Engineering and has been active on campus since then.

During this past year he was selected as a member of Who's Who and served as Chairman of the Student Senate Re-evaluation committee.

DONALD H. WHITE

Don was president of the Sigma Nu fraternity this past year as well as being Commissioner of Finance. He is a Mechanical Engineer from Livingston.

A few of his pastimes are: Who's Who, Phi Eta Sigma, Scabbard and Blade, Arnold Air Society, past officer of Fangs, Distinguished Military Student, President of Wesley Foundation, Interchurch Council, Vice President of his Junior Class, IFC, Co-chairman of High School Week, Square and Compass, ASME, World Affairs forum, Intramural sports and debate.

JUNIOR CLASS

The junior class sponsors an annual Junior Prom each spring quarter. For three years the class has saved money to make this one of the most successful dances of the year. For this event they usually get a name band and do it up fancy.

Sitting, L. to R.: Bob Bleakman, president; Carole Jean Mathews, secretary. Standing: Harriet Spurlock, social chairman; George Mattson, vice president; Janet Tobey, treasurer.

SOPHOMORE CLASS

The Sophomores have a big meeting at the beginning of the year for the purpose of electing class officers. Besides this, you might say, they just rest up after a hard, long freshman year, unless they have an ambitious president as they had this year.

Sitting, L. to R.: Robert Dixon, secretary; Phyllis Noel, president; Richard French, vice president.
Standing: Merle Listoe, treasurer; Carole Kamhoot, social co-chairman; Curtis Dassonville, social co-chairman.

MJORK

The gentleman was the one and only in the famous 1933, Mjork Montanan. He was found in many group pictures and was really an active individual.

Mjork's dignity and poise made him very popular with the Editor of the '33, David Rivenes.

Our tribute goes to this symbol of the most controversial and famous annual of Montana State College.

FRESHMAN CLASS

The Freshmen at MSC begin their college career with Freshmen Week and everything that goes along with it. Some of these things include tests, confusion, fun, registration, and more confusion.

The big event for the freshmen is the traditional painting of the "M" each fall and spring quarter.

Left to Right: Jane Smith, secretary; Bud Peres, president; Hal Nolde, vice president; Stanley Rasmussen, treasurer; Patricia Fitzgerald, social chairman; Phil Eaves, social co-chairman.

BUTTE

The student nurses complete their basic natural, physical, and social sciences on the MSC campus and then begin their training in one of the three major hospitals — Billings Deaconess, Butte Community Memorial, or Montana Deaconess Hospital in Great Falls. Other than these three general hospitals there is the Montana State Hospital in Warm Springs where students go on affiliation.

A new group of students enter the three hospitals every March and September.

Although the student nurses are away from the campus they are still a part of the MSC student body.

Billings Deaconess Hospital

All nursing students complete at least two quarters on campus before entering one of the three hospitals for training which furthers their nursing career. Some students continue on summer quarter for four quarters at MSC before entering a hospital division. When their hospital training is finished these students usually come back their senior year for another year before they receive their degree. In working for their degree, they take advanced theory courses in ward instruction, ward administration, education, and electives in their special field of interest.

When a student nurse completes her training at one of the three hospitals she is honored at a very impressive pinning ceremony. At this ceremony the student receives a diploma and a pin, which signifies that she is now a full fledged Registered Nurse.

Montana State College graduate nurses are found in communities throughout Montana, in other states, and some go into nursing in the armed forces. Nurses serve in positions from the hard working bedside nurse to holding positions of supervisors and hospital administrators.

The nurses work hard, long hours but all agree the rewards are great.

FOOTBALL - 1956

Head Coach Tony Storti powered the Bobcats through their greatest year.

The Montana State College football team showed fine form this season in becoming the first in the school's history to complete a full season with an unblemished record.

The only other Bobcat team to win all its games was the 1899 club. It won all three of its games.

A highlight of the football season was a 33-16 conquest of Montana State University, the first MSC victory at Missoula since 1902.

Coach Tony Storti's 1956 Bobcats, with a powerful line paving the way, averaged five touchdowns a game on 312 points for a 34 plus game average. They gave up 74 points, about 8 per contest.

The Bobcats won the Rocky Mountain Conference and were invited to play St. Joseph's College of Indiana at the "Aluminum Bowl" in Little Rock, Arkansas. This game was to decide the Champion of the N.A.I.A.

On a muddy, rain-soaked field a near capacity crowd saw MSC and St. Joseph's College play to a 0-0 tie.

Bobcats making the all-conference were tackles Ed Ritt and Ron Warzeka, center Sonny Holland, quarterback Dave Alt, and fullback Don Edwards.

The Bobcats had a fine season this year, taking 3rd in the conference with a 5-4 record. They wound up the season with an overall record of 13 wins and 12 losses.

The Bobcats are a young squad and should really go places next year.

A smooth working Bobkitten team finished their 1956 season undefeated in three games.

The Kittens opened their season with an impressive victory over Western Montana College at Dillon. The next week they were triumphant over Northwest Community College of Powell, Wyoming. The MSC Kittens then finished their season undefeated by spoiling the Northwest Community College Homecoming at Powell, Wyoming.

Next season the freshmen are ineligible to play on the varsity due to a conference ruling. Because of this ruling they will probably have a bigger and better schedule to give the players the experience they will need.

JV FOOTBALL

Gary Davies fakes a hand off in a practice session on Gatton Field.

The junior varsity squad, while concerned mainly with helping the freshmen make the transition from high school to college ball, still came up with a 7-7 season mark. Bob Rousey's club averaged 63.6 points per game to 59.4 for opponents.

Next season the freshmen cannot play on the varsity squad. This will give the J.V. team more strength and they are looking forward to a fine season next year.

BASEBALL

Two one-run losses wound up the 1956 season for the Cats as they dropped a doubleheader to the Grizzlies.

The first trip was to the Spokane area, the results went like this: EWCE 10-5 MSC, MSC 8-4 Whitworth, Whitworth 3-1 MSC, MSC 9-5 Gonzaga, and Gonzaga 6-0 MSC.

Back in Montana the team, coached by Dale Digerness, took a 15-8 and 17-10 doubleheader from Eastern. MSC took 4-3 and 1-0 games from ISC and lost 10-2 in the final game. Things reversed in Bozeman. The Cats took the opener 5-1, this being the last victory of the year.

The season record ended up at seven wins and ten losses.

TRACK

The second RMC Meet held on the MSC campus climaxed a season in which Bobcat trackmen made their best showing in six years.

Patterson wound up a track career at MSC in which he never failed to place in any event he entered through four years of competition. Gaustad jumped six feet three inches to set a new MSC high jump record. He later won the Montana AAU high jump title with a six foot two jump. These plus a fourth in the 880 by Curt Dassonville, a fifth in the pole vaule by Roger Hankins and a fifth in the 220 by Jim Boggs, put MSC third, behind ISC and runnerup Western State.

The next contest saw MSC defeat Colorado in a dual meet. In the traditional meet with MSU the Bobcats improved on their showing in recent years but still fell to defeat.

WRESTLING

The Bobcat Wrestlers had a fine season with a record of five wins and one loss, the best dual meet record for MSC yet.

They decided not to enter the conference meet but they have a very fine picture carrying over for next year. The grapplers lose only two seniors off the roster due to graduation. The wrestling team has been improving to a great extent over the last few years and they should really go places next season.

SKIING

The ski tow on Bridger hill is one of the busiest spots in Gallatin Valley, cars piled in below and people scattered all over the snowy slopes, provide the setting for the most popular outside winter sport.

Skiing has long been a popular winter sport on the MSC campus. Classes in skiing are filled every winter quarter and many venture the slopes as self taught enthusiasts. The thrill of coming down Bridger Mountain on a clear, cool day with the wind whistling past your ears and the tall green pines roaring their approval, will long last in the minds of skiiers at MSC.

The element of chance is present and offers a challenge to those whose brave hearts and foolish minds urge them to new heights of carelessness and plaster casts.

The Ski Team, coached by Bob Beck, competed in the Pacific North West Conference this past winter and did very well against stiff competition offered by the other schools in the conference which includes Canadian schools also. They traveled to two meets in Canada and one in Washington and placed every time.

The tow makes it possible to get to the top in time to come down again.

The women's sports, although not often open for spectators, are carried on quite regularly all during the year. The Womens Athletic Association is the central organization of girls interested in sports and physical education. Basketball, softball, swimming, bowling and most any of the less rugged sports are included in the program. Sometimes the term less rugged could mean pretty rough when action hits a fast tempo.

The supervision of these activities fall on the shoulders of the Women's Physical Education Department.

AIR FORCE ROTC

The Air Force ROTC Department offers officer training to any student who is physically qualified and who can pass the necessary tests. Many graduates, each year, enter into this proud corps as 2nd Lieutenants.

The Air Force Department sponsors several trips to Air Force Bases which are really a great experience for anyone who is interested in flying and related fields.

Every male student who is physically fit must enter the basic ROTC program. He has his choice of either Army or Air Force. Through the two years of basic air he becomes acquainted with drill, flight principles and types of planes, along with many other items preparing him to better enter advanced training if he wishes.

Although this part of the program may not be appreciated to its fullest it is necessary and is the basic rudiment of discipline and "esprit de corps."

ARMY ROTC

The Army ROTC program is set up for those who choose to enter the basic ground branch of the Military Science Department.

After two years of drill along with instruction on all of the common types of fire arms and small gunnery the student may begin the Advanced Officers Training. There he becomes trained in tactics, use of arms, theory and other necessary skills required of an officer in the Army of the U. S.

The summer camp, held at Fort Lewis, Washington, provides the actual conditions and instruction which is needed to make a soldier. The men have their work laid out for them but plenty of good times enter into this 6-weeks period.

There are many fields to choose from including armor, ordnance, quartermasters, transportation, artillery and many others.

The companies assemble and the cadet officers drill the basics under the supervision of the staff. Amid sweat and dust, the cadence rings clear.

Instruction on weapons is an interesting part of the basic M S program. Students learn the parts, how to disassemble and assemble, and how to use most of the basic small weapons.

Cadets gaining experience on the rifle range developing an accurate eye.

Pat Andrews looks like he was left holding the bag on night maneuvers.

Setting up the mortar is Bob Terrell (center) and associates.

Les Conger, second from right, loads magazines and eavesdrops in on the field phone.

The organized houses on MSC's campus encompass a large number of the student body.

Besides providing home-like living conditions and good food they strive to build personalities and promote leadership. The houses are operated by the members and basically are self-supporting.

Cleanups, cold tubs, water fights, firesides, formals and various other forms of activities all combine to create a unity among their memberships.

HONORARIES

Our own hearts, and not other men's opinion, forms our true honor.

ALPHA LAMBDA DELTA

We represent the "brains" of the freshman class. To be eligible for this national honorary we have to have a grade point average of 2.5 for the first two quarters of our freshman class.

Our organization was established at MSC in 1930 for the purpose of promoting higher scholastic standards among the women of our college.

Anna Mae Brenden, our president, gave talks to all the incoming freshmen girls to, should we say, encourage them to aim for a higher scholastic average throughout their college career.

Some of the projects we undertake during our Sophomore year, which is the time we are in Alpha Lambda Delta, are decorating the Christmas tree in the Library at Christmas time, and helping with all of the functions of high school week. Oh yes, and we mustn't forget one of our most important projects, and that is giving an award to each girl in the spring of her senior year if she has managed to maintain a 2.5 average throughout her four years in college.

ALPHA ZETA

We belong to the national agricultural fraternity. In order to be chosen for this honorary we have a high scholastic average as well as being sincerely interested in the development of agriculture. We are the future agricultural leaders of America, future farmers, economists, research experts, and, we hope, the backbone of the nation. The highest honor an agricultural student can attain during his college career is when we, as members of Alpha Zeta, pick an outstanding freshman majoring in agriculture and present him with a trophy honoring him for his achievements in scholarship. Among our many projects we get livestock "polished" up for the High School Week display, and assist with the Little International Show.

ALPHA TAU DELTA

To be a member of this nursing honorary, we must have a 1.5 average for the first quarter on campus and must maintain this average as long as we are a member of Alpha Tau Delta.

There are four divisions of the Lambda Chapter of Alpha Tau Delta. We have one on the campus and one at each of the three hospital divisions.

We are proud to say that the national president of this honorary is a member of our chapter.

As a national project all chapters of ATD sell calendars at Christmas time to raise money for the National Epilepsy League.

Alpha Tau Delta has a threefold purpose; to further higher professional educational standards, to inaugurate projects that enrich the field of nursing, and to bind those in this profession closer together.

ALPHA PSI OMEGA

We members of Alpha Psi Omega form the dramatics honorary of Montana State College. A specific number of credits, which are given according to the amount and type of dramatic work we do, are needed to become a member. Also a grade point of 1.5 is required.

During Religious Emphasis Week this year we sponsored and took part in a dramatic reading of the religious play, "Boy With a Cart". As it is written in our constitution, we sponsor one social function a year. This usually turns out to be a picnic held during spring quarter. This is looked forward to by the members of Alpha Psi Omega as a relaxing change from the various dramatic activities we participate in throughout the year.

MU BETA BETA

Someday when you walk around the campus you will be able to tell exactly which building is which by the neat, attractive sign in front of it. This has been a hard project to organize and we still have details to work out at this time.

We, as the 4-H Honorary, work in close contact with the Extension Service during 4-H Club Congress and State Leaders meetings. We also have a get-acquainted party with the college extension staff each year.

Our goal is for better agriculture and homemaking and to serve and improve 4-H clubs around the world.

Some are members of the Extension Service and some are special friends of 4-H, but we are mainly college students.

SPURS

"At Your Service" is the motto of Spurs; and we try our hardest to live up to it. In the Spring of our freshman year twenty-five girls were chosen on the basis of service, activities, character, and scholarship to become members of this sophomore women's service honorary. From Freshman Week through to the end of our sophomore year we are busy helping with student activities, ushering at assemblies, school plays, all athletic contests; in general, doing whatever job needs to be done. We sponsor mixers with the Fangs and each year select the "Knight of Knights".

Although we well know that the uniform, so white in the morning, will be dirty in the p.m., we would not trade it and what it represents for the world.

FANGS

That rattle and banging you heard one day during Fall Quarter wasn't Montana Hall falling down, it was just the Fangs in their suits of armor on the initiation day. The Fangs, members of the national Intercollegiate Knights organization, form one of the most active service organizations on our campus. Working jointly with the Spurs, we help during Freshman Week, usher at games, assemblies, maintain MSC traditions, and help with about any other campus activity you can mention, including the painting of the "M".

Each year we sponsor a dance during spring quarter at which we announce and crown our "Spur of the Moment".

A Fang is chosen to be an Intercollegiate Knight during the spring of his freshman year and he serves as a Fang during his entire sophomore year.

LES BOUFFONS

Les Bouffons, literally meaning "The Clowns", is a senior men's honorary. On the basis of outstanding personality, activities and various other qualifications, we are chosen to join Les Buffs in the winter of our Junior year. Our initiation in the Spring is looked forward to by all the campus, in fact the initials, "LB" are very close to each girl's thoughts when the grand day dawns. The initiation is an extremely dressy affair, short pants and tux coats are the main essentials.

Fall quarter sees the Les Bouffons holding a formal dinner, and during winter quarter we crown our queen at a formal dance. In the spring we have an annual picnic. Annually we raffle off a well equipped, late model car, usually owned by a minister, driven only on Sundays.

PHI SIGMA

Phi Sigma, a group of bright, budding scientists, was organized to promote interest and research in the biological sciences on the campus. This national scholastic honorary consists of members of the Botany, Bacteriology, and Zoology and Entomology departments. We may be chosen in our junior or senior years provided our grades reach the required standard.

Our meetings are held during the noon hour and much business is discussed amidst munching and crunching of sack lunches. We have been quite busy with our special project. After identifying the various trees on campus, we have placed signs before them which tell, in words of many syllables, their scientific names.

For the past two years we have organized a dinner for visiting high school students who come for the pre-science fair.

Bug beaters, fungus finders and junior game wardens with the high standards of Phi Sigma, that's us.

Row 1, L. to R.: Joan Raymond, Mary Lou Thomas, Glenelle Wood, Mary Jo Morton, Frankie Hougaard.

Row 2: Billie Beadle, Jean Allen, Avis Griffith, Alice Keene, Jean Painter, Freda Chamberlin, Shirley Trotter, Liz Tobey, Neva Larson.

MORTAR BOARD

This senior women's honorary is known nationally as Mortar Board. We are chosen on the basis of leadership, service, and scholarship. Mortar Board was formed on this campus in 1927 from another campus organization, Cap and Gown.

Among the functions we sponsor are the Mortar Board carnival held during High School Week, and a tea for the foreign and transfer students. Our annual all school girl-ask-boy formal during fall quarter is one of the outstanding social functions of the year.

We always sit in the front row of the south section of the gym floor chairs during assemblies.

We enjoy our duties and feel fortunate to belong to Mortar Board.

SEPTEMVIRI

Septemviri is the senior men's honorary. It consists of seven members selected by the faculty on the basis of scholarship, leadership, personality, and activities. The members of Septemviri are the guardians and custodians of Montana State College traditions. We sponsor the annual President's assembly, and review the traditions of the school for the benefit of the student-body. "Hello Walk", the "Freshman Daddy", and freshman not being allowed to enter Montana Hall by the front door, are a few of the traditions carried out by this honorary.

Our caps and gowns identify us when we appear as a group.

Row 1, L. to R.: J. Michael Poston, David Schmidt and Don Graham.
Row 2: Boyd Hardy, Jerry Siderius, Val Glynn, Gary Cotton and David Street.

MU SIGMA ALPHA

Members of Mu Sigma Alpha are selected on the basis of their grades, musical interest, character and personality. To be eligible for our local honorary society a student must be a member of the MSC student body and have at least a one quarter standing with a 1.5 average. Students in both the bands and choirs are represented in our organization. This honorary has been active since 1949 and is under the direction of Mr. L. E. Opp.

For the first time this year we sponsored a "Spotlight" dance which we hope will be an annual event. Music was furnished by an orchestra consisting of members of the music department and faculty. We also put on what we thought was an excellent floor show. The talent was furnished strictly by our own music department. All proceeds of this very successful dance went toward music scholarships for needy students interested in taking up music as their career.

ARNOLD AIR SOCIETY

We of the Arnold Air Society are a recent addition to the MSC campus. We are an advanced Air Force ROTC honorary with the purpose of furthering air power.

Our activities consist of sponsoring the drag races in the fall and spring, and to help sponsor the Military Ball winter quarter. We also sponsor all air flights made by the ROTC. We attend many conventions and meetings throughout the United States during the course of a school year.

To be a member of this Society the student must be an interested advanced AFROTC cadet who has attained outstanding leadership qualities.

PHI ETA SIGMA

Phi Eta Sigma is the freshmen men's honorary. We are selected during spring quarter of our freshman year. We must earn a scholarship average of two and one-half grade points per credit during our first quarter or semester of college to become eligible for membership.

We, as members of Phi Eta Sigma, join forces with the Fangs to publish the Fusser's Guide, the most read text on the campus. It is too bad that we bright ones must study to keep our average 90 or above, and do not have much chance to use this handy little book. We also sponsor a revolving trophy which is given to the fraternity which has the most men initiated into our honorary.

KAPPA KAPPA PSI

This organization has been active on the Montana State College campus since its organization in 1907. We are a very active musical group composed entirely of men. We help lay the groundwork for band concerts and aid in coordinating all music activities on the campus.

Beta chapter here at MSC was installed as a national honorary in 1920. Our members are chosen from the college band. Every winter we sponsor a midnight organ hour at the Ellen Theatre.

TAU BETA PI

Established on the MSC campus in 1926, Tau Beta Pi is a national honorary recognizing engineering ability and fostering high scholastic attainment. A junior must be in the upper 1/8 of his class to be eligible for membership, while a senior must be in the upper 1/5 of his class. Not only is its membership represented by students but also by a large percentage of the faculty in the Engineering Division. Interest in activities and personality traits are further qualifications for membership. Students and faculty alike have not only proven themselves in scholastic achievements but also we strive to display admirable qualities of character.

We hold our initiation during winter quarter and then climax the occasion with a large, well stocked banquet.

PI OMEGA PI

What could be better than having fun while preparing for futures at the same time? We of Pi Omega Pi, the Commercial Science Honorary, believe this organization helps us a lot in many ways. By sponsoring college functions and departmental picnics, we work to create interest in our field of study. In between times we keep busy working toward better professional commercial fields.

All Commercial Science majors, be they secretaries, bookkeepers, or economists, are considered for this honorary. Interest in a career in the business field and an average of eighty in all commercial work is required, while a seventy must be maintained in all other curriculum courses to be eligible for membership in Pi Omega Pi.

PHI KAPPA PHI

Exceptional academic ability! Phi Kappa Phi ranks top on the MSC campus for scholastic achievement. "The love of learning rules the world" is our motto and we follow it closely, otherwise how else the honor? Would you like to have a letter sent to your parents, not for the ten-ten list of course, but we send letters of recognition to parents of students who are on the honor roll. For some this serves as real incentive.

One group is composed of juniors, seniors, graduate students, and faculty. So that you may know what is expected of you, the eligibility rates are as follows. Juniors must have a 2.5 minimum, and be in the upper 5% of their class. Seniors must have a 2.25 average and be in the upper 10%.

Who's Who in American Colleges and Universities

Scholarship, activities, citizenship, service to the college, leadership, and promise of future usefulness to business and society! Sounds like top-notch qualifications . . . and they are.

Nominees are selected for this national honorary by a student-faculty administration in which any four year degree granting institution can participate.

Seniors, juniors, and graduate students are eligible for nomination. Acceptance in the organization means recognition by the college the student attends and acceptance by the national organization. Methods and committee members remain anonymous unless released by the committee.

INTERNATIONAL CLUB

The purpose of our very unique and highly worthwhile organization is to help promote international understanding, to enable students from other countries to establish American contacts, and to enable Americans to establish more and better personal contacts in other countries.

The members of our club sponsor annually a semi-formal dance called the International Ball. The main purpose of the all-school International Ball is to better acquaint us as foreign students with other members of the student body at Montana State College.

We meet every other week and try to have a guest speaker at each meeting to discuss problems of international interest. After the 'formal' part of our meeting is over, we adjourn, sometimes going to a faculty home for further discussion. Other times we just sit and talk over personal problems.

PANHELLENIC COUNCIL

The Panhellenic Council is composed of two members of each sorority on campus. The president and one other member of the sorority usually comprises the two.

It is the governing body for the sororities and we as members strive to promote inter-sorority fellowship. Officers of Panhell are chosen on a rotation basis and representatives to Panhellenic are elected by their own sorority.

One of the major activities we promote is the sorority-fraternity exchange dinners at different intervals throughout the year. A coffee hour program is also being carried on this year.

There is also what we call a Junior Panhellenic Council. This council is made up of the president of each pledge class along with one representative. It serves the same purpose as the regular Panhell. They sponsored a dance winter quarter. Last fall quarter they sent two girls from each pledge class to serve dinner at the fraternity houses to raise money for the World University Service.

INTERFRATERNITY COUNCIL

The longhand spelling of IFC is Inter-Fraternity Council. Organized to promote brotherhood among social fraternities on campus.

Combined efforts of the fraternities have bettered the community through our past projects such as redecorating the old folks home and sponsoring the Red Cross Blood Drive along with Panhellenic.

Two delegates from each house composes IFC, usually the president and one elected member.

We plan to organize intra-mural sports to help round out college life. Our main activity is to keep friendly cooperation and competition among the eight fraternities on campus. This often involves long meetings and many hours of discussion trying to work out satisfactory solutions to situations which involve the members of MSC's fraternities. Somehow we always seem to leave agreed or at least with tentative plans to agree.

MSC FLYING CO-OP

The Flying Co-op was organized on the MSC campus in 1946 by a group of students who wanted to learn to fly and have fun at the same time. The real reason we became organized as the Flying Co-op is that someone told us two could live cheaper than one, and we took it to heart. Instead, however, of just two people organizing this club to learn to fly at a very reduced rate, several fellows helped in 1946, and as a result, we today are the ones benefiting the most. Gals as well as fellows take advantage of belonging to our Flying Co-op.

Some of us are learning to fly for our own personal enjoyment while others will, after graduation, use their experience in some branch of the Armed Forces and may even become jet flyers. Whatever the reason may be, we have a good time while learning to fly. Our Co-op has its own plane and for a small charge any member of the group, who has obtained his pilot's license, may use this plane.

We fly to all different parts of the U. S. to compete with other Flying Co-op members and in the spring we fly to the national convention where we are usually lucky enough to bring back at least one trophy.

SOCK AND BUSKIN CLUB

To be very literal Sock and Buskin means comedy and tragedy. It is a local service organization for anyone having done any work along the line of dramatics or is at all interested in any of the various phases of dramatics.

Each quarter the members of our organization presents a dramatic production for the students at MSC and the general public. Besides the acting that we all do, the members of our organization handle the lighting, costuming, advertising, business, makeup, and whatever else there is that goes with a dramatic production.

We have a lot of fun but often the long hours of rehearsals and re-rehearsals seem endless. The end-product is always worth the effort and the source of much satisfaction for us all.

Rodeo Club

The Rodeo Club is a happy group, we always have a good time regardless of surroundings. Our similar background and common interest holds us together in pursuit of rodeoing and good times.

Dairy Science Club

To further the dairy industry throughout the state and here at MSC is our main objective. Anyone who is a dairy production or dairy manufacturing major can belong to the Dairy Science Club.

Square and Compass Club

The main purpose of Square and Compass Club is to provide for fun and friendships among the students who have been or are presently affiliated with any Masonic organization. We meet twice monthly for sessions of business, refreshments, and a program which usually includes an outside speaker or a panel which is of interest to all of us.

Inter-Church Council

This council is made up of two members from each church youth organization and we strive for a closer harmony among all of the groups during the year.

Our biggest project of the year is sponsoring a chapel service each weekday morning at 7:30 in the Danforth Chapel.

ICC sponsors a "progressive dinner" each winter quarter and works closely with Religious Emphasis Week Committees.

ASCE

Written longhand ASCE spells American Society of Civil Engineers. We received our charter on the MSC campus in 1934 and have been advancing in the field ever since.

The purpose of this society is to hold discussions that will help in the advancement of the CE majors. We hold weekly meetings to give the students an incite into the important engineering problems of the present time. At some meetings we take turns reporting on the current CE projects and the new trend in the profession. At other meetings we have a guest speaker or a panel discussion by student members.

Although this society is open to any engineering student, the majority of the members are CE majors.

ANIMAL INDUSTRY CLUB

Any student enrolled in agriculture and whose major interest lies in animal husbandry may belong to this club. We promote and increase the interest among the students of animal husbandry, bringing about a closer relationship among the men pursuing some phase of this subject, and also promote a higher scholastic standard among the students of animal industry.

An honorary member may be any person who is actively identified with livestock interests and is voted into the club by unanimous vote of the club members.

Meetings are scheduled regularly each month, and at the meetings we try to bring in a speaker who will be of interest to the club members. Often we have a special movie which demonstrates different phases of animal industry. Nutrition, disease, marketing, and all of the other problems in our field are our main interest.

COLLEGE 4-H CLUB

"To Make the Best Better" is our motto! All former 4-H members have the privilege of joining this club. The opportunity to travel, visit foreign countries, try new costumes and meet people is ours through the International Farm Youth Exchange. We sponsored an open house Fall Quarter for the Montana IFYE's. One of our other major functions is helping the 4-H Club Congress each fall for outstanding 4-H members of Montana. More of the many activities are: the information booth during High School Week served by the 4-Hers, the enjoyable hayrides and parties, the reports on National 4-H Club Congress and National Camp along with other trips taken by several of our members each year.

Our club is quite large but we find a lot in common through our experiences in 4-H Club work. We work together, promoting leadership and fellowship within our organization.

MSSNA

Any student enrolled in nursing is eligible for membership in MSSNA which is the abbreviation for Montana State Student Nursing Association. We have members both on campus and in the affiliated hospital units which are located at Billings, Butte, and Great Falls.

The purpose of the club is to further interest in nursing and give us a chance to decide which branch of the nursing field we would like to enter. At the monthly meetings, we discuss the problems and benefits of the nursing profession, also many of our programs feature guest speakers who discuss relevant problems. The main activity outside of nursing is the sponsoring of mixers for the student body. These activities help the nurses become better acquainted with the whole organization and promote work in the nursing profession.

HOME EC CLUB

Formed in 1895, we can be sure we are correct when we say the Home Ec. Club is one of the oldest on the MSC campus. However old our club may be, the quality of the members remains on top, we hope.

Each year we raise money to provide a scholarship award for an outstanding girl enrolled in our department. One of our projects to raise this money is selling coffee and doughnuts to the worn out faculty and students during both days of registration of each quarter during the regular school year.

We don't believe in the saying, all work and no play, so we have a picnic each spring to which the members of the Ag. Club are always invited.

H & PE CLUB

Ever attended a Class C district or state basketball tournament, or been in the near vicinity when one has been in procession? You will see the members of the H & PE Club selling concessions, ushering, changing signs, directing lost people and mopping up spilled pop. Recently we have sponsored district tournaments, and also last year, sponsored the state tourney that was held here. The money we receive from the profits goes into a fund set up to make loans to Junior and Senior PE majors, our spring party and a few miscellaneous items such as buying a phonograph for Dolphins, sending out post cards once a month to members and money for dried out tempera paint.

Soon the new Health and Physical Education Building will get full use and the athletic department will undoubtedly take over our duty as sponsors for the benefits received, but H & PE Club will succeed never-the-less.

COLLEGIATE FFA

We are an organization of the future Smith-Hughes teachers, and most of us have been Future Farmers in high school.

Our largest project is sponsoring the annual state FFA convention held here on the MSC Campus. Delegations from high schools, along with advisors from all over the state are sent to compete in these contests.

Each year we sponsor a turkey raffle at Thanksgiving time, and we also go in with the 4-H Clubs for judging during the Winter Fair.

Each quarter, one of our meetings is highlighted by a smoker and winter quarter we have a dinner dance with our wives and girls.

Our organization is designed as a teaching device as well as a friendly club for Ag Ed's.

ASME

The purpose of the American Society of Mechanical Engineers is to develop mechanical engineering and to keep us, as members, informed of the new ideas that are developing in the ME field. Also it is to help us professionally in the future. There is an organization of this kind located on the campus of nearly every engineering school in the United States.

Each year, if we have enough money, we send one or more delegates to the northwest convention. These delegates always bring back a great deal of valuable engineering knowledge.

Anyone who is enrolled in mechanical engineering is eligible for membership in this group. Through the activities of the ASME we get to know our own classmates better and learn the potentialities of engineering as a profession.

Lutheran Students Association

The main objective of our group is to work for spiritual faith and inspiration within all of us, through fellowship and worship.

This year we are exceptionally fortunate because a Lutheran Counselor has been assigned to our group. Only this year, Mrs. Pat Anderson has taken this position and already she has strengthened our LSA organization.

Wesley Foundation

Students of the Methodist faith belong to this group. Each Sunday night at 5:30 P.M., we meet for our two hour meeting.

After a delicious supper has been eaten we settle down for the more serious matters of the meeting. Sometimes we are honored by having a guest speaker who stimulates our religious thinking or talks to us about some current world problem, but we usually organize group discussions centering around our own everyday problems.

Newman Club

Contrary to other church youth groups we hold our meetings in the morning. We gather at the Catholic Church for nine o'clock Mass and communion on the first Sunday of each month. After this we gather in the church basement for a hot breakfast, and sometimes get into hot discussions. Twice each month we get together to talk over topics of interest and discuss problems in daily life.

Canterbury Club

Twice a week we, as members of the Episcopal faith, meet to become better acquainted and to further our spiritual interests. One of these meetings is a bright and early seven o'clock service at the campus' own Danforth Chapel. Every Sunday night we have a buffet supper with discussions on various phases of the church. This year "The History of the Christian Church" has been our over-all topic.

"M" Club

If you bought a raffle ticket for a chance to go to the game in Little Rock, Arkansas, you may have noticed a blue jacket with leather sleeves and a gold "M" on the chest. This is the official uniform of the "M" Club.

Some of our other activities include sponsoring Mom and Dad's Day each fall, a picnic in the spring, and a year-round job of helping to promote traditions on campus.

AIEE

American Institute of Electrical Engineers is what the initials above spell out. We meet once a month to further our interests in electrical engineering. At these meetings we are fortunate in almost always having a guest speaker.

Some of the functions of our group are Smokers, High School Week activities, Mortar Board Carnivals, and picnics.

SKI CLUB

Each year during the winter quarter is when we are the most active. Of course there is a very obvious reason for this. Although we are active mainly only winter quarter, we are busy planning for many activities throughout the year. Probably the most important of these activities is the annual Ski Club Carnival. Ski team members from several other schools come to MSC the weekend of this Ski Carnival to compete with each other as well as with the members of the MSC Ski team.

The Bridger Bowl, only in use since 1955, has been the site of many sprained ankles, broken legs, and an "awful lot of mighty cold people!" However cold as we may get, we still have a wonderful time.

PLANTS FOR TODAY...
...PLANS FOR TOMORROW!

We're Building Today to Supply Your Power Needs Today . . . and Tomorrow

Since we were organized in 1912, we always have stayed ahead of the needs of our customers. That still is our policy.

An example: Work now is being pushed on Cochrane Project near Great Falls, where ground was broken October 6, 1956, for our 13th hydroelectric plant. We also have a steam-electric generating plant at Billings.

All of this means that every time you flick your wall switch you are tapping 611,000 kilowatts of power—nearly twice as much as was available on our system at the end of World War II. Many MSC graduates are helping to plan and carry out our growth plans.

That's why it is no idle boast when we say we are

The sum total of Knowledge
Is increased by the
Inquisitive Mind.
That applies in both
School and Home.
If you have a question
about home fixtures or
appliances
Your hardware man probably
can answer it. Try him.

First Law Providing For Public Schools

When the Territory of Montana was established, the Organic Act made the following provision for education:

"And be it further enacted, that when the lands in said territory shall be surveyed under the direction of the government of the United States, preparatory to bringing the same into market, sections numbered 16 and 36 in each township in said territory shall be, and the same are hereby reserved, and in the stated and territories hereafter erected out of the same."

In his addrss to the Legislative Assembly, Sidney K. Edgerton, first territorial governor, pointed out that the endowment would provide a rich fund for education but that its benefits would not be immediately available. He urged an adequate tax levy to provide school funds in the meantime.

The legislature was prompt to act on the Governor's suggestion and provided for the establishment of a "Common School System for the Territory of Montana." The act became a law with the Governor's signature on February 7, 1865.

The first 12 sections of the act were concerned with school revenues. It was provided that the principal of all monies accruing to the territory from the sale of lands granted by Congress shall constitute an irreducible fund, the interest from which to be annually divided among the school districts.
